SUMMARY

Data Analyst and MCA graduate (8.9 CGPA, 1st Rank Holder) with hands-on experience in Power BI, Python, SQL, and applied machine learning across two internships, a structured cloud/AI upskilling program, and an ongoing freelance AI-model-evaluation role. Skilled at translating raw, complex datasets into clear, decision-ready insights for both technical and executive stakeholders. Actively seeking full-time Data Analyst / Business Analyst opportunities.

CORE SKILLS

Languages & Query: Python (Pandas, NumPy, SciPy), SQL (MySQL, T-SQL, PL/SQL), R, PySpark, Advanced Excel (VBA, Power Query, Pivot Tables), DAX

BI & Visualization: Power BI, Tableau, Looker, Matplotlib, Seaborn, Plotly, KPI Dashboards, Executive Reporting, Ad-hoc Reporting

Cloud & Data Engineering: AWS (S3, EC2), Microsoft Azure (Azure ML, Data Factory), Google Cloud (BigQuery, Vertex AI), Snowflake, Databricks, Apache Airflow, ETL/ELT

Machine Learning & Analytics: Scikit-Learn, TensorFlow, PyTorch, Keras, Predictive Modeling, Statistical Analysis, A/B Testing, EDA, NLP, Time Series (LSTM), Feature Engineering

Databases & Tools: MySQL, MongoDB, Oracle, NoSQL, Git/GitHub, Docker, Jira, Data Modeling, Query Optimization, Data Governance

Business & Strategy: Financial Modeling, ROI & Margin Analysis, BRDs, Stakeholder Management, Process Automation, Root Cause Analysis, Agile/Scrum, Cross-Functional Collaboration

EXPERIENCE

Data Analytics with AI & Next-Gen LLMs Intern — VOIS (Vodafone Intelligent Solutions) × AICTE

Remote | Aug 2026 – Present

- Onboarding into a structured program applying AI and next-generation LLMs to real-world data analytics workflows.

AICTE – Microsoft Elevate Program Intern — Microsoft Learn

Remote / Chennai (Program Host) | Feb 2026 – Mar 2026

- Completed a structured curriculum spanning Power BI, Azure Cloud, AI/ML fundamentals, and Microsoft Copilot.
- Built interactive Power BI dashboards converting raw datasets into actionable insights using Copilot-assisted analytics workflows.

AI Data Specialist Freelancer — Soul AI / Deccan AI Experts

Remote | Dec 2025 – Present

- Improve AI/LLM model performance through reinforcement learning, prompt optimization, and code-driven evaluation — systematically checking performance metrics and correcting model/LLM flaws.
- Identify process redundancies, reducing client query turnaround time and optimizing operational workflow efficiency.

Data Analyst Intern — CODTECH IT Solutions Pvt. Ltd. (Core Data Analytics Team)

Hyderabad (Host City) / Remote | Sep 2025 – Nov 2025

- Performed Exploratory Data Analysis on large-scale unstructured datasets using PySpark, Dask, and Pandas to extract actionable insights.
- Built regression/classification models (Scikit-learn) and automated data-validation scripts (missing values, outliers, schema drift); designed Tableau/Power BI dashboards for KPI reporting and ran NLP sentiment analysis, version-controlled on GitHub.

PROJECTS

CareerNavigator | Django, MySQL, Random Forest, TF-IDF | 2025

- AI-based career-navigation system for IT students — skill-to-course matching, resume builder, mock interviews, and application tracking; 90% accuracy on a custom 500-scenario test dataset.

Retail/Business KPI Dashboard & Predictive Analytics Suite | Python, SQL, PySpark, Power BI, Tableau, Scikit-learn | 2025

- Ran EDA on large-scale unstructured datasets and built regression/classification models (Scikit-learn) to surface predictive KPIs.
- Designed Power BI/Tableau dashboards for KPI reporting and automated data-validation pipelines (PySpark, Dask) to catch missing values, outliers, and schema drift.

Cloud-Powered Analytics Dashboards | Power BI, Azure, Microsoft Copilot | 2026

- Built interactive Power BI dashboards converting raw datasets into actionable business insights, using Copilot-assisted analytics workflows on Azure.

EventSphere & ServiEase | PHP, MySQL | 2024

- Built two PHP/MySQL platforms: an event-management system (vendor/supplier/volunteer coordination, online payments) and a daily-services booking platform (maid, laundry, electrician, plumber, auto/medication, emergency services).

EDUCATION

MCA — IMSCDR, Ahmednagar (Savitribai Phule Pune University)

2025 | 8.9 CGPA, 9.7 SGPA (Final Semester) | 1st Rank Holder / Department Topper ×2 | Best Student — MCA 2025

BBA (Computer Applications) — New Arts, Commerce & Science College, Ahmednagar (SPPU)

2023 | 83.02%, 9.3 SGPA | Department Topper ×2

11th & 12th (Commerce) — New Arts, Commerce & Science College, Ahmednagar

2019–2020 | 11th: 92.15%, 1st Rank (500 students) · 12th: 88.92%, 2nd Rank (500 students)

10th (CBSE) — Yashshree Academy, Ahmednagar

2018 | 86% | Top 10 Performer

ACHIEVEMENTS & CERTIFICATIONS

- Published Researcher, IJAAR (peer-reviewed journal); presented at NCERT AIML 2026.
- McKinsey Forward Program (2026); 9+ certifications/job simulations in a year (Power BI, Azure, Microsoft Learn). Languages: English, Hindi, Marathi, Malayalam.
